# MF3-25 XL

### Clamping range OD-OD: 20 - 76,1 mm

The pipe beveling machine MF3-25 XL has a working range from ID 12,5 mm to OD 76,1 mm and can be equipped with an angled drive on request. When using the optional angle motor, the machine can be used in confined spaces.

# MF4

#### Clamping range OD-OD: 38 - 133 mm

The largest externally clamping pipe beveling machine MF4 can also be equipped with an angled drive on request. This allows the machine to be used in special situations that require a compact design in addition to a large working and clamping range.
