Cutting of all materials	✓	✓
Cutting and beveling of cast iron and plastics		✓
Separates multi-layer pipes (e.g. water pipes)	✓	✓
Gear box with connection for cordless screwdriver	✓	Optional available

## PipeCut Infinity Plus

Cut all pipe materials from 360 mm pipe diameter quickly, safely and „EXACT“. Precise alignment thanks to the laser display ensures fast alignment of the Exact saw on the pipe and guarantees a straight cut. Feeding is child's play with the cordless screwdriver. The Exact PipeCuts are characterised by professional work, even with thick walls, thanks to the powerful motor!

## PipeCut Infinity Cut+Bevel

Thanks to the Cut+Bevel disc, you can cut ductile pipes, for example, and provide them with a bevel in a single operation. This special feature can also be used for plastic pipes. Simple cuts without a bevel are also possible - just change the saw blade. You alone determine the depth and how pronounced the bevel/cut should be - done in seconds thanks to the depth adjustment!

The drive is supplied with a hand crank as standard, but can be upgraded at any time.

### Infinity Plus

### Infinity Cut+Bevel

## Technical data

Voltage / Power	220-240V   2.500W   12A
No-load speed	1.900 u. 2.885 Rpm

## Basic scope of delivery

- PipeCut Infinity
- 2 Carrying bags
- Cermet saw blade
- Operating instructions
- Chain segments for 1.850 mm OD (2 x 2 M, 1 x 1 M, 1 x 0,5 M, 2 x 0,2 M, 1 x 0,1 M)
- Clamping device
- Hexagon socket 5 mm & 2 mm

## Infinity Plus scope of delivery

- + Clamping device with gearbox with connection for cordless screwdriver
- + Extension bar for the cordless screwdriver connection

## Infinity Cut+Bevel scope of delivery

- + Clamping device with crank
- + One Diamond Cut+Bevel 165 disc and a matching blade guard
