# MOBILE HYDRAULIC UNITS

## Mobile hydraulic power units

Available with electric, petrol or diesel engine

Our hydraulic power packs have an infinitely variable delivery rate of 10 to 50 l/min, at 105 bar working pressure. The oil flow can be controlled by means of the selector switch or throttle lever. Therefore, it is possible to connect hand tools with a flow rate of up to 24 l/min as well as high-performance machines with 50 l/min.

Hydraulic power packs can be used with the following tools:

- Pipe beveling machines
- Pipe cutting machines
- Chisel hammers
- Water pumps
- Cut-off saws
- Drilling machines
- Core drilling machines
- Power wrenches
